

Payzapp payroll

Are you ready?

Facing Problems

- 1 Calculate per piece wages accurately
- 2 Real-time lot tracking
- 3 Quality Check
- 4 Summary and Actions

Our Software Introduction

We found the industry is facing problem with real-time tracking of the lot and piece-based worker salary. So, we design the industry solution for it.

Once you finalise the cutting chart. then enter your cutting chart with its operations and rate in software and get ready for tracking.

Workers will enter their work using their mobile application. and track their own daily wages. So on factory can find the current lot update

1

Enter The cutting report and operations

2

Worker/line operator will select their bundle/pieces.

3

Calculate worker salary, lot tracking, QC and everything at your fingertip.

Enter Cutting Information

No	SRL NO	26	28	30	32	34	36	38	40	TOTAL
2	1	10	10	10	10	10	10	10	10	80
3	2	40	40	40	40	40	40	20	40	300
4	3	30	25	30	25	33	25	35	33	236
